

COMMUNICATION  
Sciences & Disorders

## Do you have a neurological condition? Donate your time to help others!

We're looking for adults with...

Post-stroke language  
impairment (aphasia)

Parkinson's disease

Traumatic brain injury

Mild cognitive  
impairment

Early-stage  
Alzheimer's disease

# \$25

- 1 Visit: ~2 hours
- Paper-and-pencil tests of your language and cognitive skills
- Questionnaires about your communication abilities and quality of life
- You need a study partner - someone who knows you well and can answer questions about your health and communication skills
